

February 25, 2015

Honorable Shoshana Grove
Secretary
Postal Regulatory Commission
901 New York Avenue, NW, Suite 200
Washington, DC 20268-0001

Dear Ms. Grove:

Pursuant to 39 U.S.C. § 407(d)(2), and consistent with Order No. 1865 granting the Postal Service's Motion for Reconsideration of Order No. 1822, PRC Docket No. CP2013-77, the Postal Service is providing copies of correspondence between the Postal Service and multiple foreign postal operators regarding certain EMS rates. The Postal Service has marked the non-public versions of the documents as "Confidential" and "Non-Public" because the documents contain information considered confidential and commercially sensitive by the affected postal operators and the Postal Service.

The Postal Service considers certain portions of the documents to be protected by 39 U.S.C. § 410(c)(2) and thereby not subject to mandatory disclosure under the Freedom of Information Act (FOIA). Further, the documents contain the commercial information of the affected postal operators, and as such, certain portions of the instruments are subject to protection under Exemption 4 of the FOIA. Consequently, we have attached an application for non-public treatment of the documents under 39 C.F.R. § 3007.21. In addition, we respectfully request that the Postal Regulatory Commission coordinate with us in the event that any of the documents become subject to a FOIA request, so that we can engage in appropriate consultations with the affected postal operators.

Please feel free to contact me if further information would be helpful.

Sincerely,

A handwritten signature in blue ink that reads "Anthony Alverno".

Anthony Alverno
Chief Counsel
Global Business & Service Development

Enclosures

APPLICATION OF THE UNITED STATES POSTAL SERVICE FOR NON-PUBLIC TREATMENT OF MATERIALS

In accordance with 39 C.F.R. § 3007.21, the United States Postal Service (Postal Service) hereby applies for non-public treatment of the enclosed EMS correspondence between the Postal Service and multiple foreign postal operators regarding certain EMS rates (the “Letters”). The Postal Service is transmitting the Letters to the Postal Regulatory Commission (“Commission”) in accordance with 39 U.S.C. § 407(d) and consistent with Order No. 1865 granting the Postal Service’s Motion for Reconsideration of Order No. 1822, PRC Docket No. CP2013-77, filed on September 19, 2013. The unredacted Letters are being filed under seal, while redacted copies are included as an enclosure to this transmittal. The Postal Service hereby furnishes the justification required for this application by 39 C.F.R. § 3007.21(c) below.

(1) The rationale for claiming that the materials are non-public, including the specific statutory basis for the claim, and a statement justifying application of the provision(s);

Information of a commercial nature, which under good business practice would not be publicly disclosed, as well as third party business information, is not required to be disclosed to the public. 39 U.S.C. § 410(c)(2); 5 U.S.C. § 552(b)(3); 5 U.S.C. § 552(b)(4). The Commission may determine the appropriate level of confidentiality to be afforded to such information after weighing the nature and extent of the likely commercial injury to the Postal Service against the public interest in maintaining the financial transparency of a government establishment

competing in commercial markets. 39 U.S.C. § 504(g)(3)(A).¹ Because the portions of materials filed non-publicly fall within the scope of information not required to be publicly disclosed, the Postal Service asks the Commission to support its determination that these materials are exempt from public disclosure and grant its application for their non-public treatment.

(2) Identification, including name, phone number, and e-mail address for any third party who is known to have a proprietary interest in the materials, or if such an identification is sensitive, contact information for a Postal Service employee who shall provide notice to that third party;

The Postal Service believes that the postal operators that are senders or receivers of the Letters are the only third parties with a proprietary interest in the materials. Due to language differences, cultural sensitivities, and intricacies of the Postal Service's relationships with the affected foreign postal operators, the Postal Service proposes that a designated Postal Service employee serve as the point of contact for any notices to the relevant postal operators.² The Postal Service identifies as an appropriate contact person Haley Eubanks, International Postal Affairs, United States Postal Service. Ms. Eubanks' phone number is (202) 268-4315, and her email address is Haley.N.Eubanks@usps.gov. The Postal Service has already informed each postal operator, in compliance with

¹ The Commission has indicated that "likely commercial injury" should be construed broadly to encompass other types of injury, such as harms to privacy, deliberative process, or law enforcement interests. PRC Order No. 194, Second Notice of Proposed Rulemaking to Establish a Procedure for According Appropriate Confidentiality, Docket No. RM2008-1, Mar. 20, 2009, at 11.

² The Postal Service acknowledges that 39 C.F.R. § 3007.21(c)(2) appears to contemplate only situations where a third party's identification is "sensitive" as permitting the designation of a Postal Service employee who shall act as an intermediary for notice purposes. To the extent that the Postal Service's response might be construed as beyond the scope of this exception, the Postal Service respectfully requests a waiver that would allow it to designate a Postal Service employee as the contact person under these circumstances, in light of the practical considerations outlined herein.

39 C.F.R. § 3007.20(b) about the nature and scope of this filing and about the postal operator's ability to address any confidentiality concerns directly with the Commission.

(3) A description of the materials claimed to be non-public in a manner that, without revealing the materials at issue, would allow a person to thoroughly evaluate the basis for the claim that they are non-public;

As required by 39 U.S.C. § 407(d), the Postal Service is transmitting documents concerning EMS service with foreign postal operators that are agencies of foreign governments. The documents transmitted consist of Letters that define the terms on which the Postal Service and the relevant operators exchange Express Mail Service (EMS) items under the EMS Cooperative Pay-for-Performance Plan, including rate information. The Postal Service maintains that the redacted portions of the documents should remain confidential.

(4) Particular identification of the nature and extent of commercial harm alleged and the likelihood of such harm;

If the information that the Postal Service determined to be protected from disclosure due to its commercially sensitive nature were to be disclosed publicly, the Postal Service considers that it is quite likely that it would suffer commercial harm. This information is commercially sensitive, and the Postal Service does not believe that it would be disclosed under good business practices.

Competitors could use the information to undermine the Postal Service's position in negotiations, as well as the position of the foreign postal operators that are senders or receivers of the Letters. Competitors could also use the identity of the relevant foreign postal operators to target those countries for business to the detriment of the Postal Service. The Postal Service considers these to be highly

probable outcomes that would result from public disclosure of the redacted material.

(5) At least one specific hypothetical, illustrative example of each alleged harm;

Harm: Foreign postal operators could use the rate and discount information to undermine the Postal Service's position in negotiations concerning bilateral EMS charges.

Hypothetical: The rates and discount amounts are disclosed to the public.

Foreign postal operators obtain the information and use it to their advantage in negotiating bilateral EMS charges with the Postal Service in an effort to lower the rates charged for delivery of EMS in the United States.

Harm: Foreign postal operators could use the rate and discount information to undermine the position of the foreign postal operators that are senders or receivers of the Letters in negotiations concerning bilateral EMS charges.

Hypothetical: The rates and discount amounts are disclosed to the public.

Foreign postal operators obtain the information and use it to their advantage in negotiating bilateral EMS charges with the foreign postal operators that are senders or receivers of the Letters in an effort to lower the rates charged for delivery of EMS in the those countries. Alternatively, competitors use the pricing information to develop competing products.

Harm: Competitors could use the knowledge that the Postal Service has entered into arrangements for discounted EMS rates with certain foreign postal operators to the Postal Service's detriment when negotiating business arrangements with shippers in those countries.

Hypothetical: The identity of the countries with which the Postal Service has entered into arrangements for discounted EMS rates is released to the Public.

Another expedited delivery service's employee monitors the filing of this

information and passes the information along to its sales and marketing functions. The expedited delivery service determines that those countries provide a strategic market for increased competition, and then advertises itself to those countries' postal operators as offering better rates and performance thresholds than the Postal Service.

(6) The extent of protection from public disclosure deemed to be necessary;

The Postal Service maintains that the redacted portions of the materials filed non-publicly should be withheld from persons involved in competitive decision-making in the relevant market for international expedited and parcels products (including private sector integrators), as well as their consultants and attorneys. Additionally, the Postal Service believes that, except for foreign postal operators that already have access to this information, actual or potential customers of the Postal Service for products related to inbound EMS and Outbound Express Mail International, or similar products, should not be provided access to the non-public materials.

(7) The length of time deemed necessary for the non-public materials to be protected from public disclosure with justification thereof; and

The Commission's regulations provide that non-public materials shall lose non-public status ten years after the date of filing with the Commission, unless the Commission or its authorized representative enters an order extending the duration of that status. 39 C.F.R. § 3007.30.

(8) Any other factors or reasons relevant to support the application.

None.

Conclusion

For the reasons discussed, the Postal Service asks that the Commission grant its application for non-public treatment of the identified materials.

January 16, 2015

I am writing in response to your letter dated January 14, 2015, to inform you of our acceptance of your proposed EMS rates under the EMS Cooperative Pay-for-Performance (PfP) program for calendar year 2015. The EMS PfP rates of [REDACTED] per kilogram are the preferred rates available to [REDACTED] as a valuable EMS PfP participating operator.

As the EMS PfP quarterly bills only list the number of items for payment (and not the weights), we implement a flat rate based on the average weight per EMS item dispatched to the United States by [REDACTED]. The average weight of [REDACTED] to the United States and the EMS PfP rates of [REDACTED] result in a flat rate of [REDACTED].

We are willing to accept your proposal to apply a [REDACTED] off the preferred EMS PfP rates on a reciprocal basis. This would reduce the reciprocal flat rate from [REDACTED] to [REDACTED].

The following rates will apply for calendar year 2015:

Please confirm your acceptance of these rates for 2015 by counter signature below and return a copy of the signed letter to Ms. Haley McKittrick, email: haley.e.mckittrick@usps.gov.

We look forward to continuing to grow the important EMS business between us.

Sincerely,

Lea Emerson

Enclosure

December 12, 2014

I am writing to inform you of our inbound EMS rates under the EMS Cooperative Pay-for-Performance (PfP) program for calendar year 2015. These rates were notified to UPU EMS operators via UPU Circular number 163 (see enclosure) and will go into effect on January 1, 2015. The EMS PfP rates of [REDACTED] are the preferred rates available to [REDACTED] as a valuable EMS PfP participating operator.

As the EMS PfP quarterly bills only list the number of items for payment (and not the weights), we implement a flat rate based on the average weight per EMS item dispatched to the United States by [REDACTED]. The average weight of [REDACTED] to the United States and the EMS PfP rates of [REDACTED] result in a flat rate of [REDACTED] per item.

As a preferred partner and in the interest of promoting growth in our mutual EMS service, we are willing to offer [REDACTED] off the preferred EMS PfP rates on a reciprocal basis. This would reduce the reciprocal flat rate from [REDACTED]

Based on past practice, we assume that [REDACTED] will also apply a reciprocal rate with USPS for calendar year 2015. Assuming that [REDACTED] follows such past practice, the following rates will apply for calendar year 2015:

Please confirm your acceptance of these rates for 2015 by counter signature below and return a copy of the signed letter to Ms. Modi Delgado, email: modi.s.delgado@usps.gov.

We look forward to continuing to grow the important EMS business between us.

Sincerely,

Lea Emerson

Ms. Lea Emerson
Executive Director
International Postal Affairs
United States Postal Service
475 L'Enfant Plaza SW RM 5136
Washington, DC 20260-0004
UNITED STATES OF AMERICA

Dear Ms Emerson,

Your Letter 12 December EMS Pay-for-Performance reciprocal rates

Thank for you for your letter proposing reciprocal EMS Pay-for-Performance (PfP) between the United States Postal Service and [REDACTED]

Please accept this letter as confirmation of our acceptance of the proposed rates. Attached for your records is signed "Acceptance of Rates", which I have also emailed to you. We have advised our International Accounting Team of thes EMS rates applying to the 2015 calendar year.

Thank you again for applying your discounted EMS PfP rates for [REDACTED] We echo your sentiments in that we too look forward to growing our mutual EMS traffic with the United States Post Service.

Yours sincerely,

December 12, 2014

I am writing to inform you of our inbound EMS rates under the EMS Cooperative Pay-for-Performance (PfP) program for calendar year 2015. These rates were notified to UPU EMS operators via UPU Circular number 162 (2014) and will go into effect on January 1, 2015. The EMS PfP rates per kilogram are the preferred rates available to [redacted] participating operator.

As the EMS PfP quarterly bills only list the number of items for payment (and not the weights), we implement a flat rate based on the average weight per EMS item. The average weight of [redacted] the United States by [redacted] and the EMS PfP rates of [redacted] to the United States SDR per item. [redacted] in a flat rate of [redacted]

As a preferred partner and in recognition of the growth in our mutual EMS service, we are willing to offer [redacted] the preferred EMS rates on a reciprocal basis for items from [redacted] the United States.

Our USPS average outbound weight to [redacted] was used to determine rates. [redacted] following formula [redacted] rates would [redacted]

The following rates will apply for calendar year 2015:

- [redacted]
- [redacted]

Please confirm your acceptance of these rates for 2015 by counter signature below and return a copy of the signed letter to Ms. Modi Delgado, email: modi.s.delgado@usps.gov.

We look forward to continuing to grow the important EMS business between us.

Sincerely,

Lea Emerson
